Find all the Far Tools news on our new web site www.fartools.com

Far Tools is the main brand of the group Far Group (a French company founded in 1991 based near Tours). It specialises in the design, manufacture and sale of electrical DIY and gardening tools for the general public. The ranges are sold in DIY shops, garden centres and on e-commerce sites. Far Group exports to several European countries (Belgium, Spain, Portugal, Italy, Rumania, Bulgaria, Estonia and Iceland) and also Algeria, Tunisia, Morocco and west and central Africa. The company provides After-Sales service and guarantees the availability of spare parts for ten years.

Far Tools expands its “X-Fit” battery platform range

Drywall screw gun, precision renovator, orbital sander, wet and dry vacuum cleaner and inflator/compressor

Far Tools is expanding its “X-Fit” platform offering, a complete and evolving range of cordless DIY tools operating on 1.5 to 4.0 Ah batteries. Now, the offering has 5 new products including a drywall screw gun, a precision renovator, an orbital sander, a wet and dry vacuum cleaner and an inflator/compressor.

X-fit allows the user to equip themselves depending on their needs. The range contains two base kits made up of a drill, two batteries and a fast charger, sold between 159 and 189 Euros. After that, you only need to buy the tools in the X-fit family without their battery. Batteries with or without a fast charger are sold separately.

Drywall screw gun

- Speed controller: 0-2,000 RPM
- Direction switch
- Adjustable depth stop
- Very light: 1.1 kg
- Screw length: 25-50 mm

Recommended retail price:
€69.90 inc. VAT

Precision renovator

- Variable speed 1,600 – 3,000 RPM
- Brush diameter 60 mm
- Dust extractor
- Ergonomic body, can be used with one hand

Recommended retail price:
€59.90 inc. VAT

Orbital sander

- Disk diameter 150 mm
- Working speed 6,000 RPM
- Swivelling ergonomic handle
- Dust extraction nozzle
- Right/left side handle

Recommended retail price:
€149.00 inc. VAT

Wet and dry vacuum

- 2 functions: vacuum or blower
- 10 litre tank
- Delivered with 2.5 m hose, a filter cartridge, 1 crevice tool, 1 foam filter
- Swivelling handle

Recommended retail price: €84.90 inc. VAT

Inflator / compressor

- Max. pressure 11 bar / 1100 kPa
- Digital control screen
- Inflator function

Recommended retail price: €79.90 inc. VAT

Renovator/stripper with telescopic handle REX H-200, the only stripping tool for large areas, for indoors and outdoors

Far Group is the only manufacturer to offer a complete range of electric mechanical stripping renovators for the general public: the Far Tools REX range. The latest arrival, the REX H-200, is intended for stripping large areas thanks to its 20 cm working width. The device is accompanied by a telescopic handle, allowing the user to work standing up and thus reducing fatigue: very practical for long and tedious renovation work. The REX H-200 is sold with two 0.3 mm brass brushes, ideal for working on wood surfaces such as decks.

A multi-purpose tool, the REX H-200 can use 8 other brushes suitable for all renovation needs both outside and inside: gloss, high gloss, polish, clean, sand, strip, grind, etc. The REX H-200 has a 1,800 W motor with electronic speed control (900 to 3,000 RPM) for constant working power. For increased working comfort, it has a protective cover with a dust collector. The renovator/stripper can be dismantled for manual vertical use.

REX H-200 characteristics and price

- **Brush dimensions:** 10 x 12 cm (x2)
- **Working height:** 95 to 115 cm
- **Guarantee:** 2 years
- **Recommended retail price:** €239 inc. VAT
- **Additional brushes:** from €29.90 to €54.90 inc. VAT
- **Points of sale:** DIY chains and merchant sites

Far Tools launches a portable multi-material resurfacing machine from 75 to 150 mm diameter

Grinding, stripping, surfacing, polishing, sanding

Far Tools offers a practical and effective solution for the maintenance and renovation of various types of surface: A multi-material portable sander. Compact and powerful (1,400 W motor), it can perform multiple tasks depending on the disk chosen: sand wood or plaster, strip metal, sand concrete, grind metal or even polish car bodywork.

PRACTICALITY, SAFETY AND CLEANLINESS

Designed for maximum user working ease, the sander has an adjustable and ergonomic handle and a shaft locking system. For increased safety, the device can be stored in a plastic case and its cover can be indexed without tools. Finally, to favour a clean working environment, it is accompanied by a dust collector and can be connected to an extractor vacuum.

Technical characteristics:

- Disk dimensions (sanding – grinding): \varnothing 125 mm
- Disk dimensions (polishing): \varnothing 150 mm
- Metal stripping dimensions: \varnothing 75 mm
- Shaft diameter: M14
- **Recommended retail price: €169,00 inc. VAT**

Product delivered in a case with 8 accessories.

A complete “trade” offer for drywallers

To service the special needs of the drywall trade, Far Tools has bought together a concentration of know-how and product expertise into a custom offer. Suitable for each step of a plaster-board installation job, up to filling and sanding, this offer is accompanied by sales tools and display stands for shops.

The drywall range includes several models of orbital sanders with dust extraction, offered along with wet and dry vacuums. On the hand-tool side, cabled screw guns (with or without loaders) are available along with a cordless model (part of the X-Fit platform with interchangeable batteries).

Numerous small tools, accessories and consumables complete the offer: pliers and snips, sheet lifters and props, saws, cutters and planes, filler tubs and spatulas, sanding plates, etc. And, for the preparation, several protection solutions (doors and floors) are also available.
