## Summary:

- Peugeot Outillage announces an exclusive preview of **its future 18V battery platform range!**
- New sliding double bevel miter saw **EnergySaw-254SB**
- Table saw with built-in vacuum **EnergySaw-165ASP:**  
the perfect solution for precise, powerful, safe and dust-free sawing!

## The origins of the Peugeot brand: tools!

1810, a legend was born with the production of the first Peugeot saw blade near Montbéliard, in France. Between 1935 and 1940, the range rapidly expanded into electrical equipment until its peak in the 70s and the phenomenal success of the Peugeot Polyrex ranges.

However, 1998 to 2011 saw a loss in momentum. The brand was then sold, production was stopped... until it was taken over by Peugeot Outillage in 2012. Today, the tools are developed by this French company, based near Tours, with the desire to combine quality and performance with excellent ergonomics and optimal safety.

## Peugeot Outillage announces an exclusive preview of its future 18V battery platform range!

At Eisenwarenmesse International Hardware Fair Cologne 2018, Peugeot Outillage announces the launch at the end of 2018 of its all-new 18V battery platform range. Designed by Peugeot Design Lab, this equipment will feature sleek lines in perfect harmony with the demanding aesthetic standards of the Lion brand, breaking away from the traditional aesthetics of existing tools on the market.

In keeping with its safety strategy, Peugeot Outillage will supply each product from this range with a kit including a dust mask, a pair of protective goggles and earplugs.

*First collaboration with Peugeot Design Lab was the EnergyDrill, launched in 2017*

### A COMPREHENSIVE ACCESSORIES DESIGN FOR HAND-HELD POWER TOOLS

Peugeot Outillage strengthens its range of hand-held power tool accessory sets with an innovative and original design.

Example: this 29-piece "**Special dry liner**" set combines all the functions of drilling, screwing and cutting plasterboard.

## New sliding double bevel miter saw

### EnergySaw-254SB

Peugeot Outillage introduces its all-new sliding double bevel left/right miter saw EnergySaw-254SB. All controls are on the front panel to guarantee better ergonomics and safety. It also features a front laser for better visibility of the cutting line and side LED lighting for the working area. In terms of performance, it has a 1600W motor (48° direct driven motor, V style) and can reach speeds of 4,800 rpm. 254 mm diameter blades are available in 48, 60 or 80 teeth.

With the EnergySaw-254SB, everything has been designed for ease of use, starting with the positioning of the cutting head in right and left bevel position with lever control at the front of the tool. Pre-set table angles on the aluminium plate are set by stop for the common angles from 0 ° to 45 °.

2 clamping presses included for better cutting stability. For cutting large pieces of wood, the saw also has two XXL side extensions for greater support.

Like all Peugeot Outillage tools, the **EnergySaw-254SB** comes with a safety kit (dust mask, goggles and earplugs).

#### Technical specifications:

- Device size: 780 x 540 x 680 mm
- Weight: 26 kg
- Warranty: 2 years
- **Recommended Retail Price: 259 euros including VAT**

## **Table saw with built-in vacuum ENERGYSAW-165ASP**

Peugeot Outillage offers the perfect solution for precise, powerful, safe and dust-free sawing!

The EnergySaw-165ASP from Peugeot Outillage is a compact table saw with a built-in vacuum, ideal for sawing solid or laminate flooring, MDF, chipboard or OSB boards. Designed for clean and precise sawing, it features a 1200W motor and 40 mm cutting capacity. The built-in 1000W vacuum collects up to 95% of sawdust generated and is a real asset to a clean working environment.

The two sliding table extensions offer the user a large working table of 515 x 720 mm. The 50-tooth fine-toothed blade and transparent housing provide comfort and ease of cutting. The inclination of the blade is adjustable to 45°. The saw features a straight guide and an adjustable angle guide for corner cuts.

### **PRACTICALITY, ERGONOMICS AND SAFETY**

The device is equipped with a NVR switch and a thermal cut-off which automatically shuts the machine down in the event of overheating. Forever ergonomic, the table saw also has power cord storage. The table along with its extensions in aluminium casing and ventilated and lightened housing make up a combined weight of 16 kg. The base has been designed to attach to the universal saw holder EnergyStand-2000R and stores accessories during transport.

In line with the "One Step Safer" concept from Peugeot Outillage, the **EnergySaw-165ASP** is supplied with a safety kit, including a dust mask, a pair of safety goggles and earplugs.

The EnergySaw-165ASP table saw is part of the Peugeot Outillage bench power tool range that have been specially designed to produce very low dust levels. The range also includes the **EnergyPlane-204ASP planer - thicknesser** (collects up to 97% of shavings) and the **Energysand-200ASP sander/finisher** (collects up to 95% of dust).

### **Technical specifications:**

- Device size: 600 x 655 x 400 mm
- Weight: 16 kg
- Warranty: 2 years
- **Recommended Retail Price: 289 euros including VAT**
